WRECK VICTIMS SUFFER TORTURE

FOURTEEN DEAD AND NINETY IN-JURED IN ACCIDENT.

PASSENGER COACHES BURN

Wrenk on Yaroo and Mississippi Valloy Road Near Monts, La., Is Appalling in its Results-Commission to investigate.

New Orleans .- Fourteen lives were enuffed out and ninety passengers intured when a through freight train crashed into the rear end of a nothand excursion train on the Yazoo and Mississippi Valley raliroad near Monts. La.

The appalling disaster is charged by the railroad officials to the negligence of a flagman named Cunningham, who disappeared when the two trains crashed together.

Of the dead, four are white women, one a white infant; four negro women and five negro men.

Forty-one of the injured are white and forty-nine negroes. It is expected that all of these, except possibly three will recover.

Without Details.

Although the scene of the wreck in but twenty-seven miles north of New Orienns and relief trains were sent from this city and from Baton Rouge, the railroad officials withheld from the press information of the wreck until a late hour Monday morning.

A remarkable feature of the wreck was that the loss of life was confined almost entirely to the last and fourth from the last coaches of the excursion train. The second from the rear coach escaped injury almost com-pletely. The excursion train was made up of ten coaches with negroes occupying all but the two rear coach-

The rear coach was demolished and the third and fourth coaches were oped. All three, together with the freight engine, were burned.

Pathetic stories of ghastly horror were brought to New Orleans by survivors, many of whom barely escaped death. The confusion and excitement incident to the distressing scenes of death and suffering was increased by the cries and exclamations of the hundreds of negroes who ran about in a panie stricken condition.

Many Saves from Flames

A few of the negroes were self-possessed and lent their earnest aid to the heroic efforts of white passengers to save from the flames those pinioned beneath the wreckage, but most of them ran wildly about shrieking, shouting and praying.

Mrs. Thomas McGinnis, wife of a New Orleans plumber, was killed and ser husband and two small babies are in a local hospital. Three of the other dead among the white victims were relatives and neighbors in Zachary. La. At an early hour Monday night no one had appeared to claim the body of the white infant, and it to supposed that the child's mother perished in the wreck.

Of the injured forty-six were brought to New Orleans for medical treatment and forty-four were taken to Baton Rouge or to their homes.

The Louisiana ratiroad commission Monday telegraphed to the interstate ree commission to join in an investigation of the wreck.

Mrs. Hoyle-I can read my husband like a book. Mrs. Doyle-I've heard he was once

SKIN DISEASE ON FACE

Barthell, Ky .-- "I had a skin disease on my face, neck and hands that tormented me all the time and when I e places would burn so that I had to keep my face wet in cold water. It began as pimples and indeed it was disfiguring, for it would get in spots on my face and hands as large as a quarter of a dollar. It would get into blisters sometimes and I sure did suffer. My face burned all the time. It was this way so bad for about six years and I tried everything that I could hear of, but nothing did any good.

One day I found the Cuticura Soap and Ointment advertised and ordered some at once. I would wash my face good with the Cuticura Soap and then apply the Cuticura Ointment and they have cured me. It would take half a tablet to tell all I suffered in those six Years." (Signed) Mrs. Della Hill, Jan. 3, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L. Boston."

WESTERN CANADA'S **PROSPERITY**

NOT A BOOM, BUT DUE TO NAT-URAL DEVELOPMENT.

One of the largest banks in Holland has been doing a big business in Western Canada, and Mr. W. Westerman, the President, on a recent visit into the Provinces of Manitobs, Sas-katchewan and Albert', expressed himself as being which is pressed with present conditions and spects, and was convinced that the great prosperity of the Dominion was not a boom, but merely the outcome of natural developments.

Not only has money been invested largely in Western Canada by the Holland Banks, but by those of Germany, France, as well as Great Britain. Not only are these countries contributing money, but they are also contributing people, hard headed, industrious farmers, who are helping to produce the two hundred million bushels of wheat and the three hundred million bushels of the other small grains that the Provinces of the West have harvested this season.

During the past fiscal year there came into Canada from the United States 133,710; from Austria Hungary 21,651; from Belgium 1,601; Holland 1,077; France 2,094; Germany 4,664; Sweden 2,394; Norway 1,692; and from all countries the immigration to Canada in that year was 354,237. From the United States and foreign countries the figures will be increased during the present year.

Most of these people have gone to the farms, and it is no far look to the time when the prophecy will be ful-filled of half a billion bushel crop of wheat in Western Canada. Advertise-

No Strangers Allowed.

Frank H. Hitchcock, the postmaster general of the United States, takes the deepest interest in even the smallest details of the postal service. One evening he was at the Union station in Washington, when he decided to go into one of the railway mail service cars to see how the mail matter was being handled. Being a tall man and very athletic, he easily swung himself from the platform into the car, but he did not find it an easy matter to stay put. A burly postal clerk grabbed him by the shoulders, propelled him toward the side door, and practi-cally ejected him to the platform be-

"What do you mean by that?" asked Hitchcock indignantly.

"I mean to keep you out of this car," replied the clerk roughly. "That fellow Hitchcock has given us strict orders to keep all strangers out of these carz."—Popular Magazine.

Built Her Own Home.

Miss Frances Lyon of Westwood has the distinction of being the only woman in New England who lives in a house literally built with her own hands. Miss Lyons belongs to a club whose members are practicing the doctrine of going back to the farm. The club is limited to 40 members and owns property to the amount of \$1,000 and about 70 acres of farming land not far from Westwood. Each member holds a deed to one acre and the hal. ance of the land is held in common to be rented to any member who wishes to try farming on a larger scale.

Truth About Old Age. George F. Baer, the famous Philadelphia ratiroad man, said on his sev-

entieth birthday "I agree with Professor Metchnikoff about the wisdom of the old. Professor Osler made it fashionable to decry gray hairs, but my experience has been that the old not only possess

wisdom, but they seek it also." With a smile Mr. Baer added: "The only people who think they are too old to learn are those who really are too young."

Just Like Other Men.

Most surgeons simply go way up in the air when one of the world's great ones is stricken. When Sir Frederic Treves was called to operate on King Edward he split him open as non-chalantly as if the king had been an apple or a watermelon.-New York
